

Have Your Say on the Telford & Wrekin Transport Plan 2027-2041

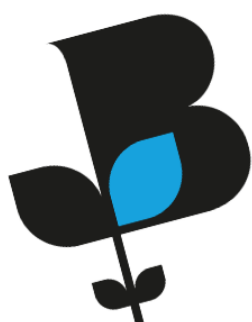

Telford & Wrekin Council is inviting businesses, residents and stakeholders to help shape the future of transport across the borough through its draft **Transport Plan 2027-2041**.

The plan sets out the Council's long-term vision for improving connectivity, supporting economic growth, reducing congestion and enhancing sustainable travel options over the next 15 years. As transport infrastructure plays a vital role in attracting investment, supporting workforce mobility and enabling businesses to thrive, it is important that the voice of the business community is reflected in the final strategy.

We encourage Chamber members to review the proposals and share their views on the opportunities and challenges facing the local transport network. Feedback received during the consultation will help inform the final vision, priorities and investment plans for Telford & Wrekin's transport system.

The consultation is open until **Sunday 27 September**.

To view the draft plan and complete the survey, visit www.telford.gov.uk/ltp
